Moet & Chandon CHAMPAGNE

The Choice of the Rulers of the World's Great Nations.

ENGLAND—During the Coronation Festivities at Buckingham Palace, Windsor Castle, and at the Coronation Banquet on Aug. 9, His Majesty King Edward VII. gave the cachet of his Royal Approval to the brand of Moet & Chandon, being the only Champagne served. FRANCE—At the dinner given at the French Embassy in honor of the unveiling of the Rochambeau Statue by Monsieur Cambon, representing the President of the French Republic, the only Champagne selected was Moet & Chandon. AMERICA—At the White House, Washington, at the Banquet to H. R. H. Prince Henry of Prussia, on February 21st, given by the President of the United States, the only Champagne on the Menu was Moet & Chandon. GERMANY. On board the Imperial Yacht "Hohenzollern" at the Banquet to the President of the United States, given by H. R. H. Prince Henry of Prussia, on behalf of H. I. M. the Emperor of Germany, no Champagne was served except Moet & Chandon.

GRAND TRUNK PACIFIC.

Branch Will Likely Run to Calgary.
 Winnipeg, Nov. 28.—(Special.)—Messrs. Morse and Wainwright, of the Grand Trunk, reached Calgary yesterday and left for Edmonton tonight. Mr. Morse said Calgary would probably be reached by a branch of the Grand Trunk from the proposed Pacific line. Engineer Staples of the C. P. R. was badly scolded at Vancove station, the crown sheet of the locomotive blowing out.

Venezuela May Settle

Report That Castro's Representatives Are Taking Steps in Europe.
 And Will Settle Without Making Measure of Compulsion Necessary.
 Denial That It Is Merely an Excuse to Spar For More Time.

London, Nov. 28.—The Associated Press learns that important steps were taken in London with the view of satisfying all the financial and diplomatic claims of foreign powers and bond holders against Venezuela. It is maintained that if the contemplated action meets with approval, Germany and Britain will have no cause to take the vigorous steps now contemplated. The details of the suggested settlement have not yet been communicated to European governments; their gist will first be made known to the United States government, possibly tomorrow. Venezuela's propositions were mentioned to United States Ambassador Choate today, but pending the result of direct negotiations at Washington, no action will be taken by the United States. It is claimed that President Castro has hitherto had no opportunity of taking up the question of national finances, but while he was himself engaged in suppressing the revolution, he sent to Europe the secret delegation referred to, with a view of accomplishing what was regarded as impossible at Caracas. Secretary was also regarded to be imperative, in view of President Castro's belief that if it had been known that Venezuela contemplated a new financial settlement, he would have been inundated with claims of every description, and the dealings with the bond holders would become twice as difficult. The details of the plan are carefully guarded, but the Associated Press is in a position to announce that the main feature is a unification of all the outstanding government loans, and government guaranteed loans, upon a basis of security much greater than has been hitherto offered. It is strenuously denied that the present movement is due to any desire on the part of Venezuela to "spar for time" with Great Britain and Germany, and in proof of this, it is pointed out that the secret mission left Venezuela before her relations with Great Britain and Germany had assumed the present acute aspect. Should the United States government give its moral support, the plan will be submitted to the bankers. The Venezuelan delegation believes that it is not too late to secure the necessary facilities from Europe to bring about a settlement mutually satisfactory to all parties concerned.

TORONTO AS A COAL DEALER

Clive Pile of Welsh Anthracite Is Being Bought in a Rush.

From Our Own Correspondent.
 Toronto, Nov. 28.—(Special.)—Leading dealers have ceased looking orders for hard coal. The stock is practically exhausted and the supply coming in so slowly that they cannot bank on anything for the future. Customers among the law were met this morning with the reply that the dealers were not selling hard coal. The city did a land office business with its Welsh coal. When the city treasurer's office opened at 9 o'clock this morning, people lined up five deep in front of the windows, and in a few minutes bills and silver were piled up on either side of the receiver's great hump. These were kept too busy taking orders to total up sales, but they were very large.

SCHOOL QUESTION.

Sir Wilfrid Discussed It With the Pope.
 Rome, Nov. 28.—The Vatican instructions to Mr. S. Baret, apostolic delegate to Canada, Espirito Morales, after great attention to the school question, on the ground that the Pope spoke earnestly on the matter to Sir Wilfrid Laurier, when he received him on September 9. Sir Wilfrid Laurier, on that occasion, promised the Pope that he would give the question his greatest personal thought.

SLAP FOR SAM.

Should Treat Negroes Better Before Lecturing Roumanian.
 Berlin, Nov. 28.—The Kreuz Zeitung, discussing United States Ambassador White's recent letter to Henry Seligman, of Frankfurt, regarding the treatment of Hebrews in Roumania, says it is to be recommended that the ambassador remove the beam from his eye before removing the mote from his neighbor's. Roumanian Jews, says the paper, are better situated than the United States negroes. They are not treated with the same contempt, and do not suffer lynch law, nor are Jewish funeral processions in Roumanian mobbed as in New York and Chicago.

MR. MURPHY RESIGNS.

Denis Murphy, ex-member of the legislature for West Yale, who took office in the Prior cabinet on Saturday last, tendered his resignation to the Premier last evening.
 His resignation was accepted.
 Mr. Murphy declined to make any statement for publication, save that his resignation was tendered for private and personal reasons.
 He left for home by this morning's Charming.

TO RECEIVE SURRENDER.

Colombia Government Committee Leave for the Provinces.
 Panama, Nov. 28.—Generals Salazar and Vasquez Cobas and the committee appointed to receive the arms of the revolutionists and reorganize the public administration in the provinces, left here last night on the cruiser Bogota for Chiriqui. The cruiser sailed South yesterday.

Strike In Westminister

Telephone Employees Stop Work in Sympathy With Vancouver Branch.

Board of Trade Committee Will Try Good Offices For Settlement.

From Our Own Correspondent.
 Vancouver, Nov. 28.—The Westminister telephone employees have struck in sympathy with the Vancouver employees. They walked out at 5 o'clock tonight.
 Supt. Kent said to the Colonist correspondent tonight that he had done all he could in trying to persuade the employees to take no positive action until he could call the directors together, and they took advantage of him when he was powerless to deal with them. He had offered the Board of Trade his operating room if they could provide the operators, that business interests might not suffer, and owing to the great necessity of serving the business interests of the city, it was likely the switch boards might be operated by ladies who did not have to work for a living.
 There is no measure of relief in the strike situation. Supt. Kent declines to move in the matter until the directors of the city arrive on the scene, which will be about Tuesday.
 A special committee of the Board of Trade will wait on the telephone operators tomorrow and try to induce them to go back to work and submit to the decision of a board of arbitration to be mutually agreed upon on their grievances.

The price of shingles will be advanced to cents on April 1. The B. C. Shingle Manufacturers' Association decided on this course, it is said, owing to the mills being unable to supply the demand, particularly in the Northwest. Mills are notifying their travelers to sell no shingles at present prices for delivery after April 1.

Is Still Missing

Belief Grows That the Steamer Bannockburn Has Been Lost.

Nothing Has Yet Been Heard of the Vessel or Her Crew.

Insurance Companies Send Out a Tug to Make a Search.

Chicago, Ills., Nov. 28.—It is not believed that the steamer Bannockburn is ashore on the mainland north of Michipicoten island, despite rumors to the contrary. It is reported from Sault Ste. Marie, that during the week weather has been fine, and there was nothing to prevent a boat from making the trip from the island to the Sault, to say nothing of the trip to Michipicoten, which is about 50 miles in an air line from the mainland northwest end of the island. With the vessel on the shore there and no heavy sea running, it would be an easy matter for some of the crew to make their way to the shore and then on foot to the harbor in two days, at the most. There is a telegraph station at Michipicoten harbor, and it is reported from there that nothing has been heard of the Bannockburn.
 The insurance companies today ordered the wrecking tug Favorite from Chelveyton to the reported scene of the wreck. A despatch sent out from this city by Geo. L. McCurdy, an insurance man, was made on this early report of the vessel being ashore, and Mr. McCurdy declared this evening that he had no positive information.

GLOBE EDITOR RESIGNS.

Will Start a Morning Independent Paper.

Toronto, Nov. 28.—(Special.)—J. S. Willison, editor of the Globe, has resigned. His resignation will take effect at the end of the week. On the street it was rumored for some time that he contemplated this step. The public announcement comes as a surprise to the citizens, who have so long identified him with the direction of the senior Liberal organ in Canada. He will begin the publication of an independent morning paper.

UNPLEASANT PROSPECT.

United States Seems to Have Trouble Yet in Philippines.
 Manila, Nov. 28.—Constabulary Inspector Hendrix, who has been stationed at Samar island, was killed last Tuesday by a band of Idrones. His detachment of constabulary was routed and Hendrix, with one soldier, was killed. The Sultan of Bacolod, after professing friendship for the United States, has written a letter to Captain Pershing, at Camp Vicars, in which he calls Americans "hogs who eat hogs," and challenges them to fight.

One Penny

Will Aid a Sick Friend.
 Will You Spend It?

Write me a postal card to tell me who needs help. Tell me the book to send. That trifle is your part—all the rest is mine. Write it today.

I will even do this:—I will mail the sick one an order—good at any drug store—for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, it cost \$5.50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

Could I meet you I would forever convince you that I have what these sick ones need. More than that, they must have it, for most of them can never get well without it. I would overwhelm you with evidence.

But I can meet only a few, so I say to all who need help: "Try my Restorative one month at my risk. Learn by a test just what it can do. If it succeeds, you are well. If it fails, it is free." I know that no sick one can neglect an offer like that.

I fail sometimes, but not often. In rare cases, there is a cause—like cancer—which medicine cannot cure. But I have furnished my Restorative to hundreds of thousands on these terms, and 30 out of each 40 have gladly paid, because they got well. I am willing to trust the sick ones to be fair with me.

It is a remarkable remedy that can stand a test like that. It is my discovery, and I spent a lifetime on it. My Restorative is the only remedy that strengthens the inside nerves. Those nerves alone operate every vital organ of the body. When an organ is weak it means that its nerve power is weak. It is like an engine that needs more steam. To doctor the organ is useless. The weak organ will do its duty when given the power to act, and no other way can cure it.

My success comes from the fact that my remedy always restores that nerve power. My book will explain it. Please write me today who needs it.

Simply state which book is wanted, and address Dr. Shoop, Box 17, Racine, Wis.

Book No. 1 on Dyspepsia.
 Book No. 2 on the Heart.
 Book No. 3 on the Kidneys.
 Book No. 4 for Women.
 Book No. 5 for Men (sealed).
 Book No. 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles Dr. Shoop's Restorative is sold by all druggists.

The Volume of Your Xmas Trade

Depends a good deal on the attractive appearance of your goods and store. For the best and cheapest results in Store Lighting nothing can compete

SULLIVAN BROKE.

Old-Time Pug in the Bankruptcy Court.
New York, Nov. 28.—John L. Sullivan, ex-champion heavyweight prize fighter of the world, filed a petition in bankruptcy in the United States District Court today. He said his liabilities were \$2,658, and his assets \$60 worth of wearing apparel. He named four creditors.

KRUPP FACTORY.

Goes to the Eldest Daughter Bertha.
Essen, Prussia, Nov. 28.—The late Herr Krupp's will leaves the factory to his eldest daughter, Bertha, to be administered by his widow until the daughter attains her majority. Besides the \$750,000 given for the benefit of the employees, Frau Krupp, in behalf of Bertha, has given \$250,000 to be devoted to the improvement of Essen.

TIN DEPRESSION.

Makers Will Shorten the Supply.
London, Nov. 28.—At a joint meeting of the Swansea tin plate manufacturers and representatives of their workmen just held, arrangements were made for stoppages of a week each month in December, January, February and March. This action is owing to the depression in the tin trade, and in accordance with a resolution adopted at a meeting of the Tinnmakers' Association held at Swansea on Tuesday.

AGAINST DOGS LAW.

Women in New York Protest Against Proposed By-law.
New York, Nov. 28.—More than one hundred women attended a hearing to-day of the aldermanic committee on a proposed ordinance excluding dogs from tenement houses, and vehemently protested against its adoption. The announcement that the committee would report against the ordinance was greeted with applause, and many of the women pressed forward to personally thank the committee.

GENERAL NOID

Demand That Election of Firmists Be Invalidated.
Port au Prince, Hayti, Nov. 28.—Gen. Alexis Nord, who was war minister of the provisional government, and who is some miles from here with about 8,000 to 10,000 men from Gonaives, has sent an ultimatum to the government here demanding the invalidation of the election of the deputies who are members of the party headed by M. Firmin, the self-exiled leader of the recent rebellion. The general opinion is that the chamber will reject the general's demand. Preparations are being made to defend Port au Prince in view of the possibility that Gen. Nord will attack it.

REV. JOSEPH PARKER DEAD.

Famous London Preacher's Illness Ends Fatally.
London, Nov. 28.—Dr. Joseph Parker, minister of the City Temple, who has been seriously ill for some time past, died this morning.

Rev. Dr. Joseph Parker was the leading Congregationalist minister in England. Dr. Parker established the City Temple in 1869, and during the years that have passed since then he has developed an important work among the poor of the great city. Few pulpits orators were more eloquent, more outspoken, or more fearless than the celebrated British divine. Dr. Parker made a tour of the United States in 1887.
Dr. Parker was 72 years old. In 1900 he edited the London Sun for a week. Dr. Parker received his degree of Doctor of Divinity from the University of Chicago.

E. & J. Burke's Three Star Old Irish Whiskey

It possesses a soft, mellow flavor produced by age and high quality.

Apoplexy

caused more deaths in New York City in 1901 than were occasioned by Smallpox, Typhoid Fever, Malarial Fever, and Scarlet Fever combined.
The Mutual Life Insurance Company of New York will not insure those who have apoplectic symptoms. This suggests the advisability of insuring your life while in good health.

The Assets of The Mutual Life Insurance Company of New York exceed those of any other life insurance company in existence. They are over

\$352,000,000
It has paid Policy-holders over
\$569,000,000

which is more than any other life insurance company in the world has disbursed.

A young man, ambitious of success, should consider these points: "Where Shall I Insure?"

Fire Near Rat Portage

Three Hundred Thousand Dollars Damage in Little Town of Norman.

Millions of Feet of Lumber, Besides Steamers and Buildings Destroyed

Rat Portage, Nov. 28.—The most disastrous conflagration that has ever visited this district for years started about 3:30 this morning in the Rat Portage Lumber Company's lumber yard near Norman, and has been raging ever since, aided by a stiff wind from the South-east. The fire started from a spark blown into a pile of cedar being the planing mill and being fanned by the wind, soon got into the lumber piles and beyond the control of the fire appliances. At the present writing 25,000,000 feet of lumber water with the stock as well as Leman's ship yard and six steamboats, two barges, eleven dwellings and one stable.

The steamer Tumbler was hauled up on the slip for the winter, and would have been burned had not Capt. Kendall hitched a line to her propeller, and with her sister boat, the Clipper, pulled her back into the water by the cabin burning, which was soon extinguished with the Clipper's hose.

The boats burned were the Daystar, belonging to the Lutheran Mission, valued at \$600; Phantom, owned by Capt. Lewis, valued at \$2,000; Kenia, owned by L. R. MacKay, valued at \$2,000; Spray, owned by B. Knight, valued at \$1,000; Pearl, owned by Gardner & Co. valued at \$70; Midge, owned by the Dominion Fish Co., valued at \$500. There is no insurance on the steamboat of Commerce for the full amount settles all questions of the bona fides of the company in the matter.

THE GREAT NORTHERN.
In connection with the proposal of the railway people that the extension of the line from Victoria to the terminus at the end of the Victoria Terminal Company is in a position to connect with our at South Westminster or some other convenient point, we are ready to handle all our business over your line.
In order to do this it should be understood that the business will be handled with promptness and dispatch in every way, and that your facilities will be such as to ensure this.

J. J. HILL.

Mr. Wood says that he does not think that any other construction can be placed upon the letter than that J. J. Hill is prepared to make Victoria a terminal point of his system as far as is possible.

CUBAN POLITICS.

Havana, Nov. 28.—At a special meeting of the Cabinet, presided over by President Palma, it was unanimously decided to accept the resignation of the secretary of the government, Tamayo, on condition that he should be granted the duties of the vacant position. The fact that President Palma did not request Tamayo to tender his resignation, and it was not expected by the Nationalist party, which has been in the front of the Cuban politics. The Republicans are jubilant at the practical removal of the President of the Nationalist party from the most important Cabinet position and claim that this step means the breaking up of the party.

MOUNT SICKER.

Deer Reported Plentiful in the District.

Mount Sicker, Nov. 28.—(Special.)—It is reported that Mr. G. Fagan is about to erect his building to parties who contemplate opening a general store.
Deer are very plentiful on Mount Sicker, and bucks weighing nearly 200 pounds, with six prominent horns, seem to be as plentiful as the smaller kinds.
The weather is beginning to get cold, and the inhabitants fear a very severe winter with early snow.

The new school is in charge of Dr. Hands, and he seems to be very capable of keeping the youngsters in their places, which was no very easy task to undertake.
Distress after eating, belching, and nausea between meals, are symptoms of dyspepsia, which Hood's Sarsaparilla cures.

All Claims To Be Paid

Terminal Railway Deposits
Check For Full Settlement
With the Bank.

J. J. Hill of Great Northern Explains Extent of His Co-operation.

When next the City Council meets for the discussion of Victoria Terminal railway matters and the extension of time which is asked for in carrying out the terms of the original contract entered into in May, 1900, notification will be given that a certified check for the sum of \$9,110 in full settlement of the claims for damages has been deposited with the manager of the Canadian Bank of Commerce.

At the recent conference, which was held in the City hall looking to an adjustment of terms upon which an agreement by-law could be presented to the city, His Worship the Mayor and Ald. Kinsman insisted that it ought to be at once stipulated before negotiations proceeded that the city should be indemnified for the damages by citizens who claim a loss of value in property owing to the bringing of the railway into the city, should be paid by the city.

Mr. A. E. Wood, speaking for the railway delegation present at the meeting, said his company was perfectly willing to guarantee an immediate payment of the claims once an agreement had been reached with the Council regarding the terms of the by-law, and the endorsement of the latter by the city. He said that the city should make such a statement, and to indicate the absolute bona fides of the company in the matter, the following letter was forwarded by Mr. Woods to the Canadian Bank of Commerce.

To the Manager of the Bank of Commerce, Victoria:

Dear Sir:—I herewith enclose you my certified cheque for the sum of \$9,110, to be cashed and used by you as soon as a by-law now in course of preparation by the Corporation of the City of Victoria, in amendment of the Victoria Terminal Railway By-law No. 323, and the agreement made by the said Corporation under the said by-law, is duly passed by the said Corporation.

The proceeds of the said cheque are thereupon to be paid by you in paying the persons having claims against the Victoria Terminal Railway and Ferry Company, according to the schedule attached hereto upon the said claimants producing to and leaving with you releases of their claims against the said Victoria Terminal Railway and Ferry Company, duly endorsed as approved for payment by Thornton Felt, solicitor at law, and J. G. Gregory, the solicitor for the said company.

A. E. WOOD.
Dated at Victoria, B. C., Nov. 28, 1902.
Mr. Wood explains in connection with the adverse comment which has been made respecting the company's action in setting one claim and neglecting to tend to the others, that the claim for \$300 was presented by one of the parties to the controversy and settled. Similar action was to be at once taken with the object of satisfying the other claimants, which a dispute arose over the question of additional expenses. The company would not stand to be held up for what it considered too much, which it had no guarantee of an agreement being arrived at with the city so the payment of the major portion of the additional claims was deferred. Now, however, the depositing of the certified cheque, which has been granted by the company for the full amount settles all questions of the bona fides of the company in the matter.

THE GREAT NORTHERN.
In connection with the proposal of the railway people that the extension of the line from Victoria to the terminus at the end of the Victoria Terminal Company is in a position to connect with our at South Westminster or some other convenient point, we are ready to handle all our business over your line.

The weather is beginning to get cold, and the inhabitants fear a very severe winter with early snow.

The new school is in charge of Dr. Hands, and he seems to be very capable of keeping the youngsters in their places, which was no very easy task to undertake.

Distress after eating, belching, and nausea between meals, are symptoms of dyspepsia, which Hood's Sarsaparilla cures.

Ladies give your orders for hand-made lace, cream and black silk and all shades, braids, rings and nets, latest patterns, at Mrs. W. H. Adams, 78 Douglas street.

Distress After Eating

Nausea between meals, belching, vomiting, flatulence, fits of nervous headache, pain in the stomach, are all symptoms of dyspepsia, and the longer it is neglected the harder it is to cure it.

Hood's Sarsaparilla and Pills

Radically and permanently cure it—strengthen and tone the stomach and other digestive organs for the natural performance of their functions.

Accept no substitute for Hood's.

"My appetite was gone; nothing tempted me to eat, and what little I did eat felt annoying and unpleasant in my stomach. I tried many remedies without any benefit whatever. Finally, Hood's Sarsaparilla having been recommended, I began its use. After taking one bottle my stomach would retain food, and my appetite began to improve. After taking three bottles I was completely cured." WILLIAM ROSS, Wellington street, Sarnia, Ontario.

Hood's Sarsaparilla promises to cure and keeps the promise.

MARRIED.

NIXON-ROBERTS.—On the 26th inst., at Kuper Island, by the father of the bride, Arthur Perry Wood, eldest son of Col. Nixon, R.E., to Edith Margaret Russell, daughter of the late J. R. Roberts.

DIED.

McLELLAN.—At the family residence, George road, on the 27th inst., Alexander James McLeellan, a native of Prince Edward Island, aged 88 years. The funeral will take place from the residence as above on Saturday afternoon at 2:30 o'clock.

Friends please accept this intimation.

Victoria the Picturesque

Handsome Illustrated Book

Just Published By the Tourist Association.

Splendid Specimen of Local

Artistic Skill and Clever

Compilation.

The Tourist association has just published a handsome book of 32 pages, entitled "Picturesque Victoria," which is by all odds the finest specimen of lithographic, photo-engraving, and printing ever turned out in the city. The cover, lithographed in three colors, is at once striking and harmonious, depicting at a glance some of the chief attractions of the city. On the back cover is a map showing Victoria's position with regard to the Western portions of the continent and the various railway and steamship lines serving the city. The book is designed not only to set forth the beauties of the city and its surroundings, but also to impress upon the reader Victoria's importance as a commercial, mining, industrial and shipping centre, and special attention is given to Vancouver Island as a resort for anglers and hunters. The evolution of the transportation service is shown very effectively through pictures of the steamer Beaver, one of the best of the Empresses and the new and magnificent steamer Princess Victoria. The homes of Victoria are fittingly described and illustrated, public buildings, schools, and churches are given due prominence, and then the enchanting scenery in and about the city is attractively brought to the reader's notice. A brief chapter on local sports, amusements, fishing, shooting and yachting splendidly illustrated appeals to lovers of outdoor life. Particular mention is made of the numerous industries in and tributary to Victoria, and the book closes with information regarding hotel accommodation and other matters of interest to visitors, including a summary of the game laws of British Columbia.

Taking it all in all the book is a distinctly creditable production, a tribute to the taste and industry of Mr. Herbert Cutbush, who compiled it. The beautiful arrangement of the reading matter and the pictures, through which they are placed side by side, is in itself no small achievement in bookmaking, while the appropriateness of the illustrations and their artistic settings are admirable and speak well for Mr. Cutbush's judgment and skill.

The half-tone illustrations used in the book are the work of the British Columbia Photo-Engraving company, and they are equal to anything that could be produced in the East. The lithographing and printing were done by the Colist Printing & Publishing company, and testify to the capabilities of that establishment.

"Picturesque Victoria" contains, as an insert a map of the city and suburbs, specially prepared for the Tourist association.

WINTER TOURISTS.

A lady and gentleman from Manitoba, who visited the Tourist association bureau yesterday, expressed the opinion that many hundreds from that province could be induced to visit Victoria during the winter months if the climatic conditions and scenic beauties were more universally known. The lady said she was surprised at the size and excellence of the retail stores of Victoria, and the fine classes of goods kept in stock. Many Manitobans go East every winter and leave large sums of money in Eastern cities for dry goods, millinery, etc., and she stated that the prices here were very little if any higher than in Winnipeg, Toronto, or Montreal.

The Tourist association is in communication with the railway companies in an effort to secure special winter excursion rates from points in Manitoba to the Territories, similar to those which the G. N. & N. P. is issuing to Eastern provinces. The G. N. & N. P. has expressed a willingness to accede to this request, but is deterred by the action of the G. N. & N. P., which, so far, have declined to make any concession.

KOKANE APPLIES.

From Nelson News.

R. McGuire, superintendent of the Molly Gibson, was in town yesterday and brought with him some apples from his ranch at Kokanee creek, which compare favorably with any that have been seen here this summer. The apples are of the duchess of Edinburgh variety, and are from trees planted three years ago.

SPECIAL NOTICE—ALL FRIDAY BARGAINS REPEATED TODAY—SATURDAY.

The Hutcheson Company, Ltd., Victoria, B. C.

Beware of Catalogues!

At this season of the year it is customary for Eastern firms to issue large and elaborately gotten up catalogues, and scatter them broadcast throughout the land. The mere fact of their coming from the East is apt to suggest cheapness to the ordinary observer. Compare prices contained in these books with ours; then judge between us! We positively claim our prices to be lower for the same class of goods than those advertised by any Eastern house.

W. B. SHAKESPEARE,

The Reliable Jeweler, 74 Yates Street.

N. B.—If you wish to know anything about our reputation ask our customers.

NOTICE

Point Ellice bridge will be closed to traffic during repairs, commencing on Monday, December 1st.

C. A. TOPP,

City Engineer.

Public readings on the stage of prominent citizens each night.
Admission free first night. Collection taken.

Corticelli Home Needlework.

"Onward" is the watchword of the Corticelli Home Needlework Magazine. Great changes and improvements are under way, and the next number will surpass all previous issues. The magazine will be increased in size to that of the regular standard publications, the dimensions of the pages being 6 1/2 x 9 1/2 inches. It will be handsomely printed from new type and on fine book paper, and will contain a vast amount of valuable information to lovers of art needlework, decorative crocheting, drawn embroidery, etc. The usual number of beautiful colored plates will appear, as well as many handsome designs and patterns for holiday gifts.

Owing to the extensive improvements made in the magazine, the price after January 1st will be 50 cents per year for the four issues, or single copies 15 cents, but orders from now on till the first of the year will be received at the old rate of 35c. or 10c. for sample copy. Address Corticelli Silk Company, Ltd., St. John, P. Q. Write for the great premium offers now being made.

No lady who desires to perfect herself in the skillful use of the needle, can afford to be without the "Corticelli Home Needlework Magazine." Mention this paper.

Notice is hereby given that I intend to apply to the Board of Licensing Commissioners at their next sitting as a Licensing Court, for a transfer of my license for the sale of wines and liquors by retail, upon the premises situate on the north side of Johnson street, in the City of Victoria, and known as the International Hotel, to Medley Harper and Wilbert Trew.

Dated the 27th day of November, 1902.

Along the Waterfront

Benjamin F. Packard Puts Into Montevideo With Heated Cargo.

Liners For the Orient—Queen Is Due—Amasis Arrives.

The American ship Benjamin F. Packard, from Norfolk, Vermont, for Honolulu, with a cargo of coal, has put into Montevideo with her cargo heated. The news of her distress was given in despatches just received from the Uruguay port. The Benjamin F. Packard had a narrow escape from being ashore on the rocks off the Dallas Road not far from the outer docks when she was last in these waters. It was during the heavy gale of Christmas night last year. The Benjamin F. Packard had arrived in the Royal Roads from Honolulu the night before, together with the ships Santa Clara and Bankburn, and the morning of the 26th dawned, it was found that all three had dragged their anchors, the Benjamin F. Packard being within a stone's throw of the rocks off Dallas Road, and inside the Brochier Ledge beacon, and the ship Santa Clara was off Trial Island, holding by one anchor, while Capt. Capt. Wylie was looking in vain for the Bankburn, and until 24 hours later could not learn anything regarding her, when she was found to be lying off the Coast of San Juan Island, just holding. The Benjamin F. Packard and Bankburn were towed from their dangerous positions to safety, but when the Santa Clara lifted her anchor, as the tug Mystery took hold on December 26, she went ashore on Trial Island, and case is now pending out that account in the Victoria courts, being set for trial on Tuesday next.

FOR THE ORIENT.

Many Liners Expected During Early Part of Next Week.

Steamer Empress of China, of the C. P. R. line, will sail from the outer docks on Monday night, or early Tuesday morning, for the Orient, with a large complement of passengers, including the Crown Prince of Siam, his party, with whom will be Mr. George Denny, formerly city editor of the Colonist, and now of the Associated Press, who has been touring with the party. He is on his way to Japan to represent the news-gathering association in Mikado-land.

The Japanese liner Kaga Maru, Capt. Eckstrand, is due from the Orient on Tuesday, and the steamer Tosa Maru, now loading cargo at Smith's Cove, is to sail from the outer docks on Tuesday

for Yokohama and the usual ports of China and Japan.

Steamer Yangtze, of the China Mutual line, is due at the outer docks on Monday from the Orient.

AMASIS ARRIVES.

Kosmos Liner Here—Harold Here For a Crew.

The German steamer Amasis, of the Kosmos line, arrived off the Outer wharf yesterday morning, and passed up to Vancouver to discharge nine hundred tons of sugar from Salaverry, Peru, for the British Columbia Sugar Refinery. Another arrival in the Royal Roads yesterday was the Norwegian bark Harold, which was towed into the Roads from the Fraser river by the tug St. Clair, laden with salmon for Liverpool. The Harold, which is the last of the salmon fleet to sail, shipped a crew yesterday, and leaves for sea this morning in tow of the tug Pioneer. The British ship Pass of Killiercrankie has put to sea from Galian, where she was lying awaiting the subsidence of the gale, which was raging outside. The four-masted schooner Alexander, which has been carrying salmon from the Fraser river for steamers loading at Tacoma, was towed back to port yesterday.

MANAUENSE DUE

At Seattle From Her Second Trip to Siberia.

The steamer Manauense is due at Seattle from Siberia on her second voyage.

In order to transport men and supplies to posts which the Northwestern Siberian company had established on the Behring Sea shores of that desolate country, the Manauense was especially fitted up for the dangerous voyages early in the spring, leaving on her first trip on May 14, and she was at sea three months and a day. The second voyage was commenced on August 13. Each trip covered practically 12,000 miles, so the two voyages make an aggregate distance traveled of 24,000 miles.

The Manauense on her last trip took aboard a number of Cossacks and Russian operatives of the company, transporting them to Vladivostok, where the vessel proceeded to Japan, meeting with slight injuries to her machinery en route, going to Hokodate for repairs. Upon her return the liner will probably go out of commission for the winter.

AGAIN IN TROUBLE.

Capital City, Which Traded Sunk, Almost in Collision.

Ill-luck seems to follow the steamer Capital City, for she narrowly averted a collision with the freighter Transport at Tacoma on Tuesday last. The Capital City when pulling out from the Commercial street dock and Capt. Edwards gave two whistles, signifying that he would pass on the port side. "In answer I got four or five whistles," says the captain, "and the blooming thing

headed straight for me. I signalled for reversed engines and backed away, luckily in time to prevent the vessels coming together. It seems to me as though those freight carriers have it in for the Capital City. Hereafter when I see one coming I am going to run away from it. There is some comfort in knowing that none of them can catch me."

The Capital City was recently rammed and sunk by the freighter Trader, of this city, near Tacoma.

THE FLORA'S OFFICERS.

Men Who Command the New Cruiser For This Station.

H. M. S. Flora, the second class cruiser, which will relieve H. M. S. Phaeton on this station, was commissioned on November 11 at Devonport, by Capt. C. J. Baker. She has a crew of 318 men. Her officers are commandant, Capt. C. J. Baker; Lieutenants F. O. Lewis (first and gunnery lieutenant), P. H. Waterer, H. F. Grant (navigating lieutenant), and C. A. Puleher; Paymaster H. K. Horsey; Chief Engineer S. J. Drake; Gunner, Sandover; Midshipmen, C. G. M. Crichton, C. F. J. Eades, R. V. Orlebar, R. E. Jones, H. Hume, C. N. Rolfe; Naval Cadets, C. E. Wilkins, R. A. Bell-Syer, A. Kennedy, Lieutenant, the Hon. Alexander R. M. Ramsay, brother of the Earl of Dalhousie, is appointed to the Flora from the Phaeton.

HECLA FOR HONGKONG.

Large Torpedo Vessel Will Be Factory Ship in China.

The torpedo vessel Hecla, of 6,400 tons displacement, is expected to sail from Birkenhead for Hongkong shortly. The Hecla is now being converted at Messrs. Laird's yard, at Birkenhead, into a floating factory, and on reaching her destination she will be attached as an auxiliary to the China Squadron. The Hecla was built at Messrs. Harland and Wolff's, Fairhead, 21 years ago. She then cost £126,100. It was started at home that the Hecla was to be stationed at Wei-Hai-Wei, but there seems to be a good deal of uncertainty in naval circles with regard to the future of Wei-Hai-Wei as a naval base, and so the new repair ship may be stationed at Hongkong. It appears that there are two diverse opinions as to the utility of Wei-Hai-Wei before the Admiralty at the present moment, and naval men in the East are not quite sure whether Sir E. H. Seymour's or Sir Cyril Bridge's ideas are to prevail. Certain it is that the tendency at present is to retiring stores from Wei-Hai-Wei to Hongkong.

MARINE NOTES.

Steamer City of Seattle has been tied up at Seattle.

Steamer Queen is due today from San Francisco.

Steamer Trees will sail on Monday for New and way ports and steamer Anur will leave for Skagway on Monday.

The Russian ship Syldford arrived in the Roads late last night from the Hawaiian Islands.

VICTORIA TIDES.

For the Month of November, 1902.

(Issued by the tidal survey branch of the Department of Marine and Fisheries, Ottawa.)

The time used is Pacific standard for the 120 Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot.

MODERN BRITISH DAIRY.

Exposition of Farmers' Work Opened at Islington.

From Pall Mall Gazette.

The vast strides that science has made in modern dairy practice has, perhaps, in this country, never been more clearly demonstrated than at the 27th annual conference of the British Dairy Farmers' Association, which has opened at the Royal Agricultural Hall, Islington. It is in but comparatively recent years that the full possibilities of the dairy as an income producer have been recognized, and the economy in practical agriculture in Great Britain and Ireland, and for the remarkable progress that has since been witnessed, credit much credit is due to the enterprising dairy farmer whose exhibition to the public are invited to visit.

The scientific farmer's couch, whose methods were so completely of the "rule of thumb" order, and with that it is perhaps to be feared not always irretrievably clear, has passed with a dash and the other crude and archaic implements of the calling. Her place in the dairy has been for the most part taken by the farmer's wife or his daughters. The most scientific skill has been expended on the appliances of the modern dairy practitioner, which are now such as entirely obviate the direct "handling" of such products as butter, cheese, and cream, and to a minimum the possibility of septic contamination, a circumstance from which in these days consumers cannot fail to derive the greatest satisfaction. Morning, afternoon and evening there will, during the continuance of the show, be demonstrations of and lectures on the approved practice, as well as butter-making contests, which will be carried out to the most accompaniment of music performed by the band of His Majesty's Regiment of Scots Guards.

The demonstrations and lectures will be under the direction of the instructors and staff of the British Dairy Institute at Reading, whose grant to a very large extent control, in the position of the wives and daughters of the dairy farmers of this country, the output of British dairies. The exhibition of appliances and machinery this year is unusually complete and extensive. It includes some mechanical milkers concerning which advanced dairy farmers have been somewhat anxiously prosecuting inquiries and conducting experiments for some time past. They would heartily welcome a really satisfactory milking machine, both on the grounds of cleanliness and of economy.

The Entire Family Enjoys The Berliner Gram-o-phone!

The Berliner Gram-o-phone

Is an Enjoyable ENTERTAINER for Every Member of the Family.

Nursery rhymes, lullabies for the little tots; band and banjo music, comic songs, minstrel shows and choruses, and music and songs from the latest light operas for the young men; violin, guitar, mandolin and piano music, and sentimental and operatic songs for the young ladies; orchestral music, grand opera, songs of Scotland, and hundreds of other instrumental and vocal selections that will enjoyably entertain the entire family and their friends. We're always adding something new. The Berliner Gram-o-phone is the only talking machine made in Canada, and guaranteed for five years.

Our new "Automatic Sound Box" gives the Gram-o-phone undoubted precedence over all other talking machines, no matter what the price. RECORDS—50c each; \$5.00 a dozen. Records are sold for cash only—practically indestructible.

CLARKE & PEARSON AGENTS.

WEAK LUNGS LEAD TO Consumption.

THOUSANDS OF PERSONS ARE HASTENING TOWARDS THEIR GRAVES AS A RESULT OF THIS DREAD DISEASE

A cure is now within the reach of every sufferer:

PUL-MO

if used as directed will check the progress of this fatal disease and restore the afflicted to perfect health. Do not go to Florida, Madeira, California, Mexico or the Rocky Mountains. Remain at home with friends and home comforts around you and use Pul-Mo, which is the achievement of the century in medical science. Pul-mo is an absolute cure for Consumption, Throat and Lung Troubles, Coughs, Colds and all other consumptive symptoms.

Pul-Mo stands alone—the use of any other medicine as an assistant is not necessary. Eat good, plain, nourishing food, get plenty of fresh air and outdoor exercise, and use Pul-Mo as directed, that is all—Nature will do the rest.

Pul-Mo is inexpensive, being sold by druggists at \$1.00 per large bottle, or you may procure a sample bottle for 15 cents. If your druggist has not got Pul-Mo in stock, a sample bottle will be delivered to any address

FREE OF ALL CHARGE.
Address all letters to The Pul-Mo Co., Toronto, Ont.

A SEASIDE HOTEL.

A definite effort is on foot to replace the Mount Baker Hotel, which was destroyed by fire by a new seaside hotel. There should be no difficulty in financing the project in Victoria, and certainly such a hotel is certain to give very good returns not only to the city at large, but to the company which builds it. There are some of us who are apt to forget that the Pacific Northwest has more than doubled in population during the past ten years. For patrons of a seaside hotel we need no longer look merely to birds of passage from the East. Not only has the population round about us grown enormously, but the production and accumulation of wealth has been enormous. The development of industry through the Pacific Northwest has brought into existence not indeed a leisure class in the strict sense of the word, but a class of prosperous people who can take a vacation in the summer and have money enough to be able to spend their holidays in agreeable surroundings. Here is a commercial opportunity for Victoria which is capable of being profitably exploited now, and which is expanding very rapidly every year. The efforts of the Tourist Association have proved very conclusively the asset Victoria has in tourist travel, and have indicated the proper methods by which to make that asset profitable. The Tourist Association recognizes that a seaside hotel is an important local accessory to the work done by advertising the attractions of Victoria on the outside. The people of the city should recognize it also, and be willing to shake the tree as well as hold their mouths open for the plums, in other words raise ample funds by subscribing to the shares of a company floated for the purpose of building one. We make no excuse for thus unblushingly advertising what will be to a certain extent a private concern. We do so because it has its public aspect also, and in that aspect is highly important to the city of Victoria.

THE NEW CABINET.

The following article from the Vancouver Province expresses what we should naturally imagine to be the attitude of a reasonably moderate and independent public opinion to the new cabinet. It analyses the reasons for

the howl of opposition which has arisen in certain quarters with tolerable exactness. It might certainly occur to the howlers that their immediate transports have a rather too obvious relation to purely personal disappointment to impress people very strongly as to their sincerity:

It is not difficult to understand the reason for the feverish which characterizes the utterances of a certain section of the press and some of the members of the opposition at the success which has attended Premier Prior's work of constructing the Cabinet. It is the result of chagrin and disappointment. It was expected in these quarters that the retirement of Mr. Dunsmuir would leave the government in such shape that it would not only not be able to command a majority of the House, but it would be unable to fill the Cabinet positions with men whose appointments would be an assurance of a capable administration of the departments. These hopes have been rudely and completely shattered. Not only has Mr. Prior filled up the Cabinet ranks with thoroughly capable men, but he has secured support in the House greater even than that which was given his predecessor in the Premiership. The consequence is that all hope for the gentlemen in the opposition benches obtaining the sweets of office has been dissipated, and as a result they and their sympathizers are correspondingly enraged. One of the organs of the opposition published in this city, which has a historic quarrel with the government for reasons not far to seek, says in yesterday's issue, "It is not necessary to do more than mention the names of this new Cabinet to suggest that the opposition is in a state of utter despair. It is rage and not reason which governs him in speaking thus—rage, personally and politically—the rage of the disappointed."

It is generally conceded by intelligent and impartial men that from the ranks of the Legislature, as at present constituted, it would be difficult, if not impossible, to select on the whole a better Cabinet, and we submit that in comparison with previous administrations in this province it is a long way superior. It is especially a superior body when placed side by side with Cabinets which we have known during the last four or five years. Compared to Mr. Prentice, for example, previous Premier Ministers in this province have been really incompetent, and we have never had a better Commissioner of Crown Lands than Mr. Wells. Premier Prior's ability is widely known and accepted, and none except his personal enemies will question the knowledge or capacity of Mr. Eberts. The new members of the Cabinet are well known and highly esteemed public men in this province, and we have not the slightest fear that they will make a splendid record for themselves as members of Mr. Prior's government.

POLITICS IN KLONDIKE.

Election of Tuesday Next is First of Three Fights.
A special despatch from Dawson under Tuesday's date, says that preparation for the coming three campaigns in the Yukon political field, a great many foreigners are becoming naturalized and taking the oath of allegiance in Dawson to King Edward. In the six weeks preceding November 15, nearly 500 took the oath. The greater number are Americans. Notably among them is Col. Charles Reichenbach, formerly on the governor's staff, of the State of Washington. He was then a big game and a successful merchant. From the first of this month the number naturalized in Dawson averaged a day. The first naturalization spurt continued until November 15, when the registration books closed for the first election.

The first of the three elections to be held at Dawson will be December 2, when the territory will choose its first territorial representative to the Canadian parliament at Ottawa. The second election will be during the month, when five members will be chosen for the territorial council, the governing body of the territory. The third election will be about the first of the year, when Dawson will select its second mayor and city council. For the present the first election alone occupies the boards. The campaign is in full swing, and red-hot political meetings are being held in Dawson and all over the creeks. Meetings are held nightly. Oftentimes joint gatherings are held, and speakers of the two sides alternate in discussing the issues of the day. In distinction from the custom in the States, the most of the Yukon political gatherings are participated in by representatives of both sides. If the government forces call a meeting, opposition speakers attend, and are given equal allowance of time alternately with the other side, and vice versa.

The partisans of the two sides are vociferous, and storms of applause occur intermittently. The audiences are composed, on the creeks, mostly of mining men, but in the city the commercial and other classes take a lively interest. Scarcely ever do the meetings adjourn until midnight, and with excitement runs high from beginning to end, and personalities at times distinguish the efforts of some, the battle is being fought mostly on the stubborn question of the platforms of the two sides and the reforms needed in mining.

The great war is the miners' war. Although two thirds of the men of the camp are foreigners, mostly Americans, and have no vote, the percentage of British and naturalized miners is sufficient to interest all members directly or indirectly, and no effort is being left unturned on either side to show why the respective candidates should be supported.

Ex-Gov. J. H. Ross' candidacy is urged largely on the ground he has made a good record in the government. From the present Ottawa government the building of hundreds of miles of roads, and has worked for the reduction of royalty and other privileges granted and that the government platform favors the repeal of concessions, the abolition of the giant Tredegar concession and the government introduction of water for various creeks.

The opposition forces claim the government has given the camp no more than it has been forced to give; allege mismanagement in the past; contend that the government is insincerely making promises of an assay office for Dawson, and calls for reforms in its platform simply to catch the vote, and then will do as it may please.

The platforms of the two parties are almost identical, but the opposition claims that if the government were sincere it would fulfill many of the contentions by making amendments for which the platform contents simply by order-in-council, which the government cabinet at Ottawa may by its own authority over at once.

Both sides are equally confident. Joseph A. Clarke, the opposition candidate, has avowed in the field personally ever since the campaign opened, and has been one of the most aggressive talkers and general fighters. His chief supporters are W. A. Beddoe, editor of the News, who is one of the cleverest and most forceful platform orators of the North; George Black,

Fifth Regiment Band Drill Hall Concert TONIGHT

BASKET BALL—SENIOR LEAGUE.
James Bay vs. Victoria West.

Local News

A Touch of Winter.—The Sooka hills yesterday morning appeared in a garb of white, and in the evening a sprinkling of snow fell in the Northern part of the city.

P. P. P.—In future the Provincial Progressive Party will meet on Friday evenings instead of Saturday. Last night the adjourned debate on "Compulsory Arbitration" was continued.

Ploughing Match.—An interesting ploughing match in which there will be a large number of competitors will be held at Gibber's ranch this afternoon. Quite a number of enthusiasts will go out from the city.

St. Andrew's Concert.—The Sons of Scotland will celebrate St. Andrew's Day with an entertainment in Sir William Wallace hall on Tuesday evening, December 2. The committee in charge report the arrangement of a very attractive programme.

Silver Wedding.—Mr. and Mrs. W. H. Clarke, of 68 North Pembroke street, celebrated their silver wedding on Thursday evening. Relatives and friends assembled in large numbers to honor the occasion, and a very enjoyable evening was spent. Many souvenirs of the happy anniversary were presented to the happy couple by members of their family and friends.

Drill Hall Concert.—An exceptionally fine musical programme will be rendered by the Fifth Regiment band at this evening's promenade concert at the Drill hall. Basketball is to be the extra attraction, the contesting teams being the James Bay and Victoria West. Great interest is being manifested in this game, which it is safe to presume will be fast and interesting.

Evangelistic Services.—Evangelistic services have been held every night this week, commencing at 8 o'clock at the Metropolitan Methodist church. The services were conducted by the pastor, the Rev. Elliott S. Rowe, in the auditorium of the church with the choir in attendance. There will be no meeting to-night but the services will be continued throughout the coming week to which all are heartily invited.

Another Candidate.—Friends of Geo. Schmidt, one of the proprietors of Steitz's restaurant, have been attempting to persuade that gentleman to stand as a candidate for the city council at the North ward at the approaching municipal elections, and have at last secured his consent. Mr. Schmidt's candidature will be unique in one respect, as he will be the only candidate who will accept no payment from the city for his services.

A Correction.—Yesterday's Colonist, advertising the approaching bazaar in the Philharmonic hall on Tuesday and Wednesday, was inadvertently made to announce the bazaar for the first day, whereas it is well known that the ladies of the Reformed Episcopal church have made preparations for a large number of guests on Wednesday from 12 o'clock. Sunday's Colonist will show a list of what may be found for sale at the various stalls. There will be something for all comers.

IN LEGAL CIRCLES.

Supreme Court Cases—Applications in Chambers Yesterday.

An addition of two more cases has been made to the list of actions set for hearing at the Supreme court sittings, which commence on Tuesday next, namely, McTavish v. Douglas, in which E. Pooley, K. C., for plaintiff, E. E. Woodson, contra; and Robertson v. J. L. Brown, W. J. Taylor, K. C., for plaintiff, M. L. Grammett (Greenwood), contra.

In chambers yesterday morning Mr. Justice Drake disposed of the following applications:

In re Larroth, deceased, Anderson v. Reid—An order to proceed with administration accounts was granted. B. G. Goward for plaintiffs, A. D. Crouse, contra.

In re Estate of R. L. Baynes-Read, deceased—Probate of will was granted, A. Maclean for executor.

B. C. Corporation v. Seabrook—R. H. Pooley, for plaintiffs, obtained a decree absolute for foreclosure.

AT THE VICTORIA.

"Lost River" Will Be Presented on Tuesday Next.

"Lost River," written by Joseph Arthur, author of "Blue Jeans," and its thrilling story of Indiana Joe, who is stung by the plot is intricate, but the main theme is the potent one of a rich, spoiled and high-headed woman, who seeks the aid of a low-down, but honest man, to whom she is attracted, but who loves her, a simple country girl. When she finds that she prefers her rival, she seeks the aid of a low-down, but honest man, to whom she is attracted, but who loves her, a simple country girl.

There is no place where you can see such a variety of useful Xmas gifts as at Weiler Bros., and there is no place where you can get such good value for your money. See our new Hot Water Jugs; they are beautiful for the money.

LECTURES ON HUMAN NATURE.
Prof. Alexander, who began his course with a free lecture at A. O. U. W. hall, Monday evening next, is everywhere recognized as the leading phenologist of America, and one of the whitest and most entertaining speakers on the lecture platform today. The following, taken from hundreds of notices, show the estimation in which he is held by the press:

"Prof. Alexander is a clever lecturer, a capital mimic and better actor than many who pose as such."
Fort Worth Gazette, Texas.
"Rich, rare and humorous. Prof. Alexander's lectures are always interesting and never wearisome."
Denver Daily Republican.
"Prof. Alexander's striking analysis of human nature, and ready flow of words, rendered his success, both as an examiner and speaker, assured from the first."
Montreal Daily Witness.
"Prof. Alexander lectured in his own inimitable style on Friday evening before an audience that filled Association hall to overflowing. The lecture was filled with good, sound, common sense, and if the status of society has not been materially elevated in Montreal, then nothing short of an earthquake can do it."
There is no doubt the house will be crowded.

Victim's Son Tells of Assault

Saw Pong Wong Stab His Father as Victim Lay Asleep.

Counsel Wants to Know What Highbinders Did With Witnesses.

There were several new features yesterday in the case against Pong Wong, the Chinese man who is charged with the murder of his father, the late Mr. Wong. The first was the testimony of the victim's son, who told of seeing his father being stabbed by Pong Wong while he lay asleep. The second was the testimony of the victim's son, who told of seeing his father being stabbed by Pong Wong while he lay asleep.

Then Dai Shee told her tale denying all knowledge of the assault or robbery, and Mr. Bradburn in his examination of the witness first called for the defence, brought out facts regarding the investigation made into the case by the Chee Kung Tong, to which Mr. Bradburn referred as the "Highbinders." He asked Dai Shee if she knew the Highbinders, and she said that Dai Shee, a member of the society, had taken her and Jung Shee to the Chee Kung Tong society on the afternoon of the assault, and both had been questioned by the society officers in the presence of about two or three hundred Chinese. Mr. Higgins objected to the evidence being given regarding what happened at the Chee Kung Tong society, but the Magistrate held that it should go in.

At the close of the case yesterday Dai Shee, who has been in custody since the day after the crime, was committed to the Victoria Prison, and it was then found that Look Den refuses to take her back in his house. He has turned her out, but among the friends of the accused who have been following the case on his behalf was one, Loey Gann, a married man, who agreed to take her to his house and shelter her.

The first witness who took the stand yesterday was Look Pook Han, 11-year-old son of Look Den, who slept in the bedroom in which the assault took place. He was sworn in the Chinese fashion by burning paper with his name written on it. He said that he got up during the night and saw Pong Wong leave his aunt's, Dai Shee's, bed. He took a knife and cut Look Den, his father. He had the knife in his hand when witness first saw him. Witnesses saw the blade of the knife, which Pong Wong held in his hands when he first saw him. After Pong Wong got out of Dai Shee's bed he walked across the room to his father's bed. He raised the curtain at the head of the bed and cut Look Den, witnesses' father, several times. Witness was so frightened that he went back to bed, where he hid down at the foot of the bed and watched Pong Wong, the accused. Pong Wong had on grey clothes and a grey cap. After he had cut Look Den several times, Jung Shee, witnesses' mother, shouted, and the accused ran from the room in a stooping position.

Cross-examined by Mr. Bradburn, witness said he first told the story he now told to his father on the day following the occurrence. His sister, who slept in the bed with him, was not awake in the room at the time, except the accused. He went to bed that night between 9 and 10 p. m. He got up during the night, now then. Accused passed about four feet distant from him when he went, knife in hand, from Dai Shee's bed to attack Look Den. There was no furniture between them. The

lamp was turned down, but he saw accused's face plainly. Accused saw him. The knife he held had a blade about six inches long. Accused held the knife in his right hand, close to his side, the blade pointed upwards. He saw the prisoner's side face and then his full face, after the cutting. From the bed witness saw the blows struck by Pong Wong, who made cutting blows at Look Den's head with the edge of the knife, not stabs with the point. His father told him to give his story in his own words. He had not said anything about it to the policeman, nor did he see any meetings held in his father's room after the assault. There were visitors there often.

The court witness said Dai Shee was sitting up in bed at the time accused passed him. He heard no talking in the bed. When he woke up he saw Dai Shee sitting up in bed. He did not speak to her nor did she speak to him. He was so frightened that he did nothing. When he got out of bed Dai Shee was sitting up in bed when he saw Pong Wong walking, knife in hand, to his father's bed. He had seen Pong Wong leaving Dai Shee's bed, and saw Dai Shee awake, sitting up in bed, but did not hear them speaking together. Shortly afterwards the blows were struck and Jung Shee shouted, "Someone is cutting you and lots of blood running." Then witness got up again, as the people hurried to the room. Dr. Harrington said Look Den had been paralysed for seven months, but six weeks prior to the assault he had been able to get down to business. On the morning of the assault witness found Look Den's wounds had been dressed by Dr. Robertson. He took off the bandages and found two wounds, one on the upper part of the left ear, which was cut through, although there was no mark on the scalp behind it, and at right angles to this was a wound on the cheek 2 1/4 inches long. This was more like a scratch. At the outer angle of the left eye was a scratch two inches in length, extending along its lower extremity, and a punctured wound about three-quarters of an inch in length, extended to the covering of the bone. There was a quantity of dry blood on the face, and in the ear. The hemorrhage was apparently from the punctured wound near the eye. The left eye was closed. The wounds could have been caused by a knife.

Princess Royal Group of Claims

Strong, Well Defined Ledges Carrying Wonderfully High Values.

Assays and Smelter Tests Run From \$19 to \$120 Per Ton.

A gentleman who recently returned from a visit to Princess Royal Island gives the following description of the Princess Royal group of mines: This group consists of five claims, each about 50 acres, or 250 acres in all. The property is situated on Princess Royal Island, and is about six miles distant from the shore. There is a good pack trail about six miles in length, over which the ore is packed at a cost today of \$8 per ton. Freight from the shore to the smelter is \$3, smelter charges \$4 per ton, making a total of \$15 per ton from the time it leaves the mine.

There are two ledges running the entire length of the property, one of which is four feet wide, and which has been exploited by crosscuts, etc., shows good ore for a distance of 800 feet on the surface and assays run from \$60 per ton upwards. The work on this ledge consists of a shaft 60 feet deep and two drifts, one 62 feet and the other 30 feet.

About 60 tons of ore have already been shipped from these ledges to the smelter and have yielded from \$85 to \$125 to the ton, the values being principally in gold. This rich ore has never been less than 20 inches wide, and in places is four feet.

The other ledge, which traverses the property is about 20 feet distant from the first ledge and runs parallel to it. Work has been done along this ledge for a distance of 700 feet of crosscuts, drifts, etc. This second ledge is from 7 to 9 feet wide and assays from \$16 to \$100 per ton, the values in this ledge being also chiefly gold.

On the 15th of September two shipments have been made, one of 10 tons, which netted \$110 a ton, and another of 10 tons, the returns of which are not yet to hand; but the assay values indicate that this shipment will run over \$100 a ton.

These are the only shipments which have been made to date, and have all been made from the first vein.

The following shipments have been made from the property. On the 10th of July a shipment of 20 tons was made, which yielded \$120 a ton, 5.19 oz. gold, .91 oz. silver and 1.39 per cent. copper. At that time the smelter allowed \$20 for gold less 5 per cent, 52 1/2 cents less 5 per cent. for silver, and 11 1/2 cents per pound for copper, less 5 per cent. and also made a treatment charge of \$5 per ton. Even at these figures the shipment netted \$95.83 a ton.

On the 15th of September two shipments were made, one of 27,000 lbs., the gold value in this being 6.4 oz., copper 3.7 per cent. At the same time a shipment of 6,700 lbs., none of which was sorted, and which represented the run of the ore in the vein, was made to the smelter, and produced \$83.20 a ton—the assay value being 4.8 oz. of gold, 2.1 oz. silver, 2.08 per cent. copper.

Since the 15th of September, two other shipments have been made, one of 10 tons, which netted \$110 a ton, and another of 10 tons, the returns of which are not yet to hand; but the assay values indicate that this shipment will run over \$100 a ton.

These are the only shipments which have been made to date, and have all been made from the first vein.

The property has been examined by a competent English engineer, who pronounced it to be a valuable property, and assays average from \$10 to \$120. His sampling covered all the exposures in both veins. Other examinations have been made, and they have been highly satisfactory.

The Tarsus Mining company of Glasgow, Scotland, have taken a working bond on the property, and they have a force of men at work pushing development as fast as possible.

MINING AT CAMBORNE. Aerial Tramway and Stamp Mill Nearly Completed.

A. H. Floeter, the engineer on the Camborne group, reports the work on the construction of the aerial tramway and stamp mill at Goldfields as progressing most satisfactorily. Last week the last tower on the tramway was completed and in ten days the cables will be stretched. The stamp mill will then be rushed through to completion, and in 60 days it is expected that the mine will be in operation on the rich gold ore from the Goldfields and adjoining claims.

For any case of nervousness, sleeplessness, weak stomach, indigestion, dyspepsia, or any other ailment, Dr. Williams' Pink Pills are sure. The only nerve medicine for the price in the market.

OKANAGAN LAKE. Promising Group of Claims Located—Splendid Surface Showings.

A most promising group of mineral claims has recently been located on the west side of Okanagan lake by J. H. Hamilton and A. W. Birle. Samples of the ore may be seen at this office. We are convinced from what we can learn that the property is a most valuable one. It is called the Gale group, and is situated between Six Mile creek and Shwaseh creek, about two and a half miles from the lake. A canal of men have been working on the property for the past few weeks, and have sunk a considerable depth on a ledge, which now extends over twenty feet. No better surface showing has yet come to our notice with this class of ore, which assays 6 per cent in gold, and gives indications of cent in silver. There is a small lake on the claim, which would furnish water power for working purposes, and its location close to Okanagan lake, makes the question of transportation one easily solved. We would be glad to see this matter looked into by mining capitalists as we believe it will repay investigation.

Lever's Y. Z. (Vase Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

MUNICIPAL

Collector's List of Lands or Improvements on Real Property Within the Corporation of the City of Victoria.

BRADSTREET'S REPORT.

Toronto, Nov. 28.—Wholesale trade in Montreal has been of fair volume this week. There is a big demand for holiday goods, and farm produce has been in good request with prices firm in most cases. The late closing of navigation this year has had the effect of pretty well reducing stocks, and the poor condition of the cotton roads has caused a reduction in offerings. Payments in country accounts have also been unfavorably affected by the same cause. That is a condition which is believed to be a seasonal one, and will be corrected at this season, and will go on snow roads in a few weeks, the prospects will be much brighter. Jobbers have been receiving good orders from retailers for seasonable goods. November sales were ahead of last year in some departments. The demand for supplies from the lumber camps has been heavy, and it is believed that the lumber output for the coming season will be fully as large if not larger, than last year. The only difficulty in this respect is the scarcity of labor. Cottons and cotton staples are firm, and the domestic goods are supplying the bulk of

Sports For Saturday

Victoria Hockey Players Oppose the Navy Teams at Oak Bay.

Capital Citys to Meet the Royal Artillery in Association Football

TODAY'S EVENTS.

Hockey—Victoria vs. the Navy, at Oak Bay, at 3 o'clock.

Ladies' practice at 1:30 p. m., at Oak Bay.

Association Football—Capital Citys vs. the R. A., at the Barracks, at 2:30 p. m.

Centrals vs. the Victoria West at Beacon Hill, at 3:30 p. m.

Navy Yard vs. Royal Engineers, at the Canteen at 1:30.

Basketball—J. B. A. vs. the Victoria Wests, at the Drill Hall.

HOCKEY.

The Victoria Hockey club plays the Navy this afternoon at Oak Bay, the game starting at 3 o'clock sharp. The following will represent the Victoria team: A. Fletcher, goal; backs, A. Jaeger, K. Gillespie, R. H. Swinerton; forwards, W. York, F. A. Fletcher, B. Tye, D. M. Rogers, L. York; reserves, A. Gowen, J. Hayward and Winsby.

At 1:30 today the Ladies' Hockey Club meet for their usual Saturday practice, which, in view of the fact that the first match against the Vancouver ladies is in exactly a fortnight's time, ought to be well attended. There have been very gratifying practices so far, and it is hoped that these will continue throughout the season.

ASSOCIATION FOOTBALL.

The following are the names of the Capital City and Royal Artillery teams which play at Work Point Barracks this afternoon:

It. A. Team—Goal, Harvey; right full back, Mitchell; left full back, Rivers; right half back, Rivers; centre half back, Fairlie; left half back, Crump; forwards, right wing, Wicks; inside right, Price; outside left, Clinch; inside left, Donnelly; centre, Johnson.

Capital City—Goal, Hughes; S. Shanks and C. Cosley, backs; J. Hughes, W. Shanks, A. Shanks, half backs; J. Lawson, J. Lorimer, S. Lorimer, centre; W. Harrison, J. Johnson, forwards.

An Association match will take place this afternoon between the Naval Yard and Royal Engineers, at the Naval Camp grounds. Kick-off at 1:30 p. m. sharp.

An Association match takes place this afternoon between the Central school and Victoria West school at 1:30 p. m. at Beacon Hill. The following will represent the Centrals: W. M. Grey, W. Winsby, J. McKirrick, Sargison; half backs, Chambers, Noel, Johnston; forwards, Shanks, Nesbitt, Sherriant, Brooker and Clayton. Substitutes, F. Brown and A. McInnis.

Victoria West team are as follows: Goal, F. Francis; backs, R. Muir, W. Winsby, J. McKirrick, Sargison; half backs, Chambers, Noel, Johnston; forwards, Shanks, Nesbitt, Sherriant, Brooker and Clayton. Substitutes, F. Brown and A. McInnis.

RUGBY FOOTBALL.

The Victoria Seniors Rugby players meet the Intermediates in a practice match at the Canadian grounds this afternoon at 3 p. m.

The Victoria Junior Rugby players are requested to turn up to practice at the Canadian grounds at 1:30 sharp. A big turn out is desired, so as to be able to pick two teams to play against one another.

The sporting editor of the Ottawa Citizen is evidently of the opinion that he has not asked to play on the All-Canadian football team. This is what the gentleman with the liver says: "There is not much likelihood of the all-Canadian football team consenting to play the Rough Riders before setting out for England. The Rough Riders are anxious that the team should take place for they want to show the all-Canadian outfit that it has no licence to call itself the best team in Canada, or even a representative team. From the personnel of the touring aggregation, it looks as if the all-Canadian pull has been at work, early and late, and as if it is not been taken into consideration. A good many questions might be asked the promoters as to their methods of selecting the men who are to make the trip, but it would afford general satisfaction if Messrs. McClure, Jask & Co. explained why they did not invite Ovide Lallier and Jim McLeod, the two best outwingers in Canadian football, and Hal Walters, the king of quarter-backs, to accept places on the team. From the two Ottawa fifteen a team might be selected that would beat the all-Canadian misfits at any game when ping-pong to Rugby. It looks fishy when only two players, Powers and Lallier, receive invitations to play abroad, when the Ottawa teams captured all the football honors that were worth having."

BASKETBALL.

The J. B. A. A. Intermediates defeated the V. A. C. Intermediates, in a very closely contested game of basketball last night, by a score of 14 to 12 points. Porter, Parr, and Whitehead did the scoring for the V. A. C.; Power, Finlayson and Belyea did the scoring for the Bays. The play was fast from the start, and kept so to the end. The V. A. C.'s had the best of the game in the first half, when the whistle was blown, the score was 4 to 11 in their favor. The Bays didn't seem to like that score, at least it looked like it, they were shot goal after goal, and by the time the whistle blew again the score was even, so it was decided to play on, Belyea finishing the game with a good shot from the field, making the score 14 to 12.

THE FIN ST PIPE MADE

The following will represent the J. B. A. A. Seniors and Victoria West Seniors in their basketball match this evening at the Drill Hall:

J. B. A. A.—Smith, centre; Belyea and H. Jesse forwards; Finlayson and Pettigall, backs.

Victoria West—W. Fairall, C. Fairall, forwards; C. Croker, centre; Jacobson, E. Andrews, backs; C. McNeil, substitute.

Bandmaster Finn has made arrangements with the Athens basketball team to play in this city on Wednesday and Thursday of next week in connection with special band concerts at the Drill Hall. They will oppose the Fernwood and the J. B. A. A. teams.

COKE ANTISEPTIC SHAVING FOAM

For Easy Shaving

gives you an individual lather, softens the hardest beard, takes the place of soap, does away with the shaving mug, benefits the skin, keeps the razor sharp—you can't shave comfortably without it. Insist on your barber using it. Collapsible tubes for sale by barbers and druggists or direct from

A. R. BREMER CO., TORONTO.

BASEBALL.

The Victoria Athletic club having formed their indoor baseball team, are open to receive challenges from any other similar organization in the city.

GOLF.

The adjourned meeting of the Victoria Golf club will be held at 5 o'clock on Monday afternoon at Mr. Oliver's office, on Bastion street, to consider the revival of their constitution.

THE TURF.

The Victoria Hunt club will meet at 2:30 today at Royal Oak. The run will be through Messrs. Rithet, Shopland, Welsh and McKenzie's farms. Lots of jumps and good going are promised those who turn out.

CHURCH HAD NARROW ESCAPE

Fire in First Presbyterian Is Checked By The Fire Brigade.

The Fire brigade were called out about 12:45 this morning to a fire in the First Presbyterian church, on the corner of Blanchard and Pandora avenues. Mr. B. Pettigill first noticed dense volumes of smoke pouring from the roof of the church, and promptly turned in an alarm to the Central fire hall. When the engines arrived on the spot nothing could be seen but smoke. Chief Watson got into the building through a window on Fairall street, having the patent Vancouver-bader mask lately purchased, this being the first fire in which it had been tried. It proved a perfect success, enabling the chief to go straight up to the fire with the hose and quickly extinguish it, before much damage was done.

The fire started in a small dressing room between the vestry and the kitchen. There was a small fire smouldering in the grate in the vestry, but not near the spot where the fire broke out—the dividing partition between the kitchen and dressing room. The cause of the fire was therefore a mystery to the firemen, though they supposed it had its origin in the careless throwing of a match or a lighted cigarette or cigar.

A meeting had been held in the vestry early in the evening, and it is probable that the fire smouldered unobserved for several hours.

MYSTIC SHRINERS.

Important Ceremony to take Place Here Next Month.

A great deal of interest is being taken in the institution of the first temple of the Mystic Shriners in British Columbia, which takes place in this city on December 12. There will be a large number of Shriners visit Victoria for the occasion, and the Steamer Majestic has been chartered for the trip, and it is expected a large number of Shriners, not only members of Albi Temple, but visitors from other lodges, will be among the excursionists.

"The action of the order in installing the first shrine at Victoria probably means that city will be the headquarters for British Columbia Shriners for years to come. Unless important reasons make it necessary it is not likely more than one shrine will be had in British Columbia."

A big delegation of Seattle Shriners will go to Tacoma tonight to attend the meeting to be held in Masonic Temple. This will be the last before the excursion to Victoria, and it is expected the route over the desert will be mapped out for the novices of the British Columbia district.

"It is stated there are many novices awaiting the coming of the Shriners before undertaking the journey across the burning sands. The mystery of the journey and are anxious to cross the plains and reach the oasis beyond. There are a number of Shriners in British Columbia at present, but they belong to established temples. Those who are planning to make the trip expect to be joined by their fellow novices, a number will join in giving instructions to the new members. It is expected the excursion will be one of the most enjoyable undertaken by the Masonic order for years."

THE DAY OF MIRACLES

is past, but many are cured of itching, burning, or pruritus, by the use of Dr. Chase's Ointment. Look upon their recovery as next thing to miraculous. It is not uncommon for persons who have undergone painful, risky and expensive operations in vain, to be finally cured by this wonderful ointment. It is the standard cure for piles.

SILVER DEPRESSION.

It is Seriously Affecting Businesses in Philippines.

Manila, Nov. 28.—Silver is being sold commercially here at \$7.40 points below the official rate. Unless the market rallies the government will be forced to change the official rate to meet the market rate. Every decline in the price of silver increases the seriousness of the business situation in the islands.

CATARRH AND COLDS RELIEVED

IN TEN TO SIXTY MINUTES.—One of the two best nostril sprays in the world, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses this powder over the surface of the nasal passages. Painless and delicate to use. It relieves instantly, and permanently cures catarrh, hay fever, colds, headache, sore throat, tonsillitis and deafness. 50 cents.—27.

Sent to Asylum.—Mrs. Drowsdowicz,

well known figure on the streets of Victoria was yesterday committed to the Asylum for the Insane at New Westminster, and was taken over on last night's Charmer.

Backache is almost immediately relieved by wearing one of Carter's Smart Weed and Beladonna Backache Plasters. Try one and be free from pain. Price 25 cents.

PRESS COMMENTS.

Mr. Dennis Murphy's decision to enter the cabinet of Premier Prior will, we believe, be very satisfactory to his constituency in general. With Messrs. Prentice and Murphy in the cabinet it will be quite possible for Yale, Cariboo and Lillooet to obtain its share of public attention in the way of roads, bridges and other improvements. Mr. Murphy is the man of ability and integrity, and without doubt he studied the situation well before accepting a portfolio. He has a splendid law practice at Astoria, which has during his residence of the past five years built up. It is a sacrifice for him peculiarly to accept a position in the cabinet. He can, however, do good service, and will certainly add very materially to the strength of the newly organized government.—Vancouver Ledger.

The intrepid and only "Jim" Wardner, who is so well known and universally admired for his enterprise and push, tells a good story on himself, the event happening the last time he visited his family at Fairhaven, Washington. "Jim" has quite a number of children, it appears, the youngest being a girl of three years of age. As "Jim" stepped from the carlidge at his door, the youngest came out and cried: "Ello, Jim! don't stay all night?"—Nelson Tribune.

WANTED—FEMALE HELP.

WANTED—Several girls. Apply Vinegar Works, 131-135 Johnson street. n25

WANTED—Experienced nurse. Apply before 9 and 11 a. m., or after 2 p. m., to Mrs. A. E. Lutton, "Okeneid," Rockland avenue. n29

WANTED—General house servant; can sleep home if desired. Apply Mrs. Fred Shakespeare, corner Russell and Esquimalt streets, Victoria West. n28

SITUATIONS VACANT.

WANTED—Ladies and gentlemen, do our work at home, spare time, \$2 to \$8 per week. Address with two cent stamp, Box 249, London, Ont. n11

SITUATIONS WANTED—MALE.

ENGLISHMAN seeks situation as coachman; is accustomed to housework; not afraid to work. Address B. Q. Colonist office. n27

SITUATION WANTED—FEMALE.

WANTED—Work in office, shop or any kind, where bookkeeping, shorthand, typewriting, German, French are useful, or manual labor. Apply X. 12, Colonist office. n9

SITUATION WANTED—FEMALE.

EMPLOYMENT WANTED—By young woman recently from England, day or otherwise. Address E. Banks, 61 Johnson street. n28

AN ENGLISH LADY requires situation as

housekeeper, companion, capable of taking entire charge of large private house, boarding house domesticated; good needlewoman; musician. Address B. L. this office. n27

SITUATION WANTED—As housekeeper

to old gentlemen or bachelors. Address J. D. this office. n26

WANTED TO RENT.

WANTED—A small house from the 1st of December. Two or three rooms and centrally located. Address J. A. Colonist office, stating rent. n28

WANTED—Gentleman wishes room with

bath, without board. Central locality. State terms, etc. Address Room, Colonist office. n27

WANTED—MISCELLANEOUS.

WANTED—Second hand bicycle for boy. Cheap. McNamry, Mt. Tolmie P. O. n29

HOLLY WANTED—Best price given. J. T.

Huggins, Florist, corner Cook and Port street. n27

WANTED—A second hand piano. Apply

Mess Sec'y of H. M. S. Amphion. n26

BUSINESS CHANCES.

FOR SALE—Restaurant, at a bargain. Good business. Proprietor leaving town. Apply O. P. Colonist office. n25

MISCELLANEOUS.

RUPTURE TREATED SUCCESSFULLY by Farleigh's Patent Appliance. Not a cent charged till you are satisfied. Come and see it. Controlled by B. C. by C. E. Heard, Moody Block, Victoria. n31

TO LET—ROOM AND BOARD.

TWO OR THREE GENTLEMEN can be accommodated with room and board at 4 St. John street, corner Belleville. n26

TO LET—FURNISHED ROOMS.

TO LET—Three unfurnished newly papered rooms, suitable for offices or light housekeeping. Apply 83 Yates St. n29

TO LET—Furnished front bedroom, down

stairs, with use of kitchen, if desired. 102 Quadra street. n28

TO LET—Furnished housekeeping rooms,

opposite A. O. U. W. Hall. Apply 79 View street. n19

TO LET—Furnished rooms for gentleman

or housekeeping suite. Apply 46 Henry St. n28

TO RENT—RESIDENCES.

FIVE RENT—We have an eight-roomed dwelling house in need of repair. We will give free rent in consideration of a reliable tenant making repairs and taking care of it. Controlled by B. C. by C. E. Heard, Moody Block, Victoria. n27

TO RENT—New seven-roomed house, Shim-

coe street. Modern conveniences. Apply 135 Michigan street. n26

TO RENT—A flat of four unfurnished

rooms. Apply 61 Herald street. n26

TO RENT—Two handsome residences, with

acreage. One of the most desirable locations in the city. Apply B. C. Land & Investment Agency, Ltd., 40 Government street. n27

TO RENT—OFFICES.

OFFICES IN BOARD OF TRADE BUILDING—Modern conveniences, heat and vaults, low rents; also large hall. Apply Secretary. n27

TO RENT—MISCELLANEOUS.

TO RENT—Good pasture for horses. Inquire 230 Yates Street. Telephone 847. n25

TO RENT—STORES.

TO RENT—Store in Todd Block, corner Douglas and Pandora streets. Rent reasonable. Apply J. H. Todd & Sons. n26

TO LET—Well lighted store, 40 Yates St.

Apply E. P. Nathan, 85 Johnson, corner Broad. n23

TO RENT—FARMS.

A GOOD FARM at Nicola and one at Alderbrook, can be rented on reasonable terms. For particulars, apply B. C. Land & Investment Agency, Limited, 40 Government Street. n23

TO RENT—WAREHOUSE.

TO LET—Warehouse on Wharf Street, 25x70, Al location and in good condition; rent, \$25. Apply B. C. Land & Investment Agency, Limited, 40 Government Street. n23

LOST AND FOUND.

FOUND—A purse. Finder may have same by proving property and paying expenses. n29

MARE AND FILLY strayed to my premises.

Will be sold to pay expenses if not claimed before 10th December. J. R. Carmichael, Cordova Bay. n29

LOST—A Masonic blue enameled charm.

Reward if returned to L. A. Rostel, 113 Government street. n29

LOST—Irish setter pup from 181 View St.

Finder kindly return to above address. n28

ASTROLOGIST.

THE GREATEST ASTROLOGER OF MODERN TIMES, who foretold the death of President McKinley weeks before. If you wish happiness, harmony or success in business or marriage or future revelation, consult R. H. L. Don't squander time and money on free offers or worthless imitations of R. H. L. Send date of birth and loc for typewritten partial horoscope. Prof. R. H. L. Don't, 127 East 23rd street, New York City. n20

DANCING CLASS.

MRS. LESTER will hold a class Saturday evenings for those wishing to perfect themselves in the two-step for the coming balls, and will also teach the new and popular "Carmenita." Meeting in A. O. U. W. Hall at 8 p. m. Information at 62 Michigan street. n19

PHRENOLOGY.

MISS BEST—Phrenologist and Palmist; good medalist. No. 80 Pandora street. Office hours, 9 a. m. to 6 p. m. n21

EDUCATIONAL.

BANJO TUITION—B. Urquhart Jackson, G.V. of London and Paris. Concerts. Apply 37 Bidegate Walk. n21

AGE OF THE LANSING MAN

Some Light on an Important Scientific Discovery in Kansas.

From New York Post.

At the Congress of Americanists in the American Museum of Natural History in New York, important light was thrown upon the scientific value of the remains of the "Lansing man." These remains have attracted widespread attention, both in this country and elsewhere, and seem to indicate the existence of man on this continent many thousands of years ago. The skull and bones of the prehistoric man who has awakened such general discussion were found recently by Martin Concanon in a deep excavation or tunnel at Lansing, Kan.

Prof. F. W. Putnam, of the Museum of Natural History, after reading the papers read there, and after a thorough examination of the bones and the nature of the environment in which they were found. One paper was by Prof. S. W. Williston, of the University of Chicago. Williston is strongly of the opinion that the remains are those of a man who lived in Pleistocene times, and are very old.

"The bones of the skeleton when examined," said Prof. Williston, "had attached to them considerable masses of the characteristic matrix of the surrounding deposits, in some places of almost stony hardness. Suffice it to say that the evidence of the genuineness of the bones is apparently beyond dispute. All the scientific men who have investigated the subject concur. I believe, that the bones were actually buried in the sandstone, where, and under the circumstances they describe. Fortunately, hence, whatever conclusions are reached regarding the bones by competent students, there will be no question as to the authenticity of the discovery."

The bones, 60 or 70 feet from the entrance of the tunnel, were at a depth of 19 or 20 feet from the present surface. It is needless to say that the roof of the tunnel has no support other than that afforded by the cohesiveness of the material, and any previous excavation would certainly have resulted in the discovery of the bones. The discovery of the bones is a very important one, and has attracted the attention of the scientific world. The bones are of a man who lived in Pleistocene times, and are very old.

The limestone floor of the tunnel is covered by two to four feet of ancient debris of limestone fragments and shales, more or less rounded and of moderate size, which had evidently rolled or slid down from the adjacent hillside. Lying in the upper part, more probably upon this debris, was a layer of the silicious loess, was found the skeleton, perhaps two feet above the limestone floor. Neither among this coarse debris nor elsewhere in the walls of the excavation could be found any foreign pebbles or other material.

"The surface of the ground immediately above the site of the bones slopes toward the east—that is, towards the river valley—for less than 100 feet to the summit of a small terrace, 15 feet higher up, overlooking the river valley, and upon which Mr. Concanon's house is situated. It is certain—I use the word with scarcely any hesitation—that originally at least 35 feet of river loess had covered the skeleton."

"Since 1844, the highest water of the Missouri river was in 1881. At that time the water reached, according to Mr. Concanon, who has lived at the place for 35 years, to within 12 or 13 feet of the horizon of the bones. The high-water mark then was 25 feet above the low-water mark, making altogether 72 or 73 feet as the elevation of the loess terrace above the river, and 57 or 58 feet as that of the present surface above the bones."

"I am aware that some of the geologists who have recently examined the tunnel, while admitting that the material in which the bones were found is of river deposition, believe that most of the material above them is of wind construction. I regret to say that I must differ decidedly from this opinion. Water-worn pebbles in quantities, and small inches of pebbles, more or less, are found, according to Mr. Butts, and complete claims are not what we would expect to find in aeolian deposits."

"Perhaps a foot above the horizon of the bones there is a very distinct stratum of darker, more argillaceous material, from half an inch to three inches in thickness, truncating nearly the whole length of the tunnel, with an inclination towards the mouth of the excavation of about seven inches in the 70 feet. In the upper part of the tunnel the homogeneous material showed slight undulating marks, as if they were, as seen, and are horizontal. I have collected many fossils from the real aeolian deposits of the plains, but never under such conditions as are found here."

"Upon the surface of the hillside above the excavation are at present to be found quartzite boulders and pebbles. The limestone hills sloping up from the terrace above the excavation to a height of 150 feet, have abundant evidence of glacial pebbles and boulders. It is not reasonable to suppose that in past times the debris and boulders were being washed down this hillside would have left evidence of intercalated material in the mud deposits? There are no such evidences in the walls of the tunnel."

"As to the age of the deposits in which the bones were found, I can offer no decided opinion except that they are of Pleistocene time. Professors Winchell and Upham believe them to be of lower or earlier stage of the glacial period. They may be correct; but I am not sufficiently familiar with glacial phenomena to vouchsafe an opinion. I am only confident that the skeleton dates from Pleistocene times and is of a man who lived in Pleistocene times and are very old."

A paper by Dr. Ales Hrdlicka, of the Museum of Natural History, on the same subject was read by Professor Putnam. Dr. Hrdlicka is now on an exploration tour in Mexico; on his way to that country recently he examined the bones and surroundings of the "Lansing man."

"The skeleton," according to Dr. Hrdlicka, "is fairly complete, but many of the constituent parts are damaged and many of the fragments are wanting. The bones are quite hard and porous, and are not sufficiently chalky to mark a blackboard. They fully preserve their structure and show no traces of fossilization. The skeleton is plainly that of a male, of about 55 years of age. The man was of a medium or slightly above medium stature, and was possessed of ordinary strength. Considered anthropologically, all the parts of the skeleton,

and the skull in particular, approach closely, in every character of importance, the average skeleton of the modern-day Middle States Indian. Zoologically, as well as in growth, the Lansing and the typical present-day skeleton of the Indian of the Algonquian stock are of the same degree and quality. There is no resemblance at all of the Lansing with the skeleton of the Middle and Eastern States Indians.

"Any assumption that it is thousands of years old would carry with it not only the comparatively easily acceptable assumption of so early an existence of man on this continent, but also the very much more difficult and far more difficult conclusion that this man was physically identical with the present-day Indian, and that his physical characteristics during all the thousands of years assumed as having passed since his existence, have undergone absolutely no important physical modification."

In commenting upon these papers, Prof. Putnam said: "There is no reason why man should not have lived on this continent even a hundred thousand years ago, and his cranial formation, in a general way, be the same as that of the present-day Indian. The two things are perfectly consistent. And far more the cranial formation of the 'Lansing man' different from the existing type, I would be inclined to have a suspicion of its being an intrusive object."

ARMY AUTOMOBILES.

Volunteer Corps Being Organized in Britain.

The proposed "Volunteer Corps of Automobileists" is exciting much comment and criticism in England. Mr. Mark Mayhew, a well-known member of the London County Council vice-chairman of the Automobile Club, and one of the promoters of the corps, is driving in this country, who is organizing the corps, is, however, stated to be by no means an irresponsible enthusiast, but a shrewd and calculating business man, with a facility for looking ahead, and possessing no small amount of military knowledge.

In a recent interview regarding his ideas in organizing such a corps, Mr. Mayhew explained that it was his intention to utilize trained and well-disciplined motor car drivers in the home defence system for much the same duties as the fast motor cars, with skilled drivers, would be invaluable for conveying information from the flanks to the general in command, and for maintaining communication with detached parties and with the base.

As regards the objection that motors would only be really useful where good roads existed, which has been so often urged against the corps, Mr. Mayhew admitted the force of this, but also pointed out that his corps is only proposed to be used in the most emergency, and that there are few parts of the United Kingdom where the roads are not good enough for cars to run along. He was quite of the opinion that anywhere that field guns could go motor cars could go likewise without any considerable risk of damage.

Regarding the present state of the corps, Mr. Mayhew has received 120 requests for information concerning it from prospective recruits, and of these no less than 96 have provisionally enrolled themselves. The pay for members of the corps when on manoeuvres is expected to be at the rate of 30 shillings a month, but the actual pay by the government.

The statement by Mr. Mayhew that although a member will be treated as a gentleman, he will not be, nor will he rank as an officer, has been taken by those who oppose the project to mean that there will be no suitable discipline in the corps. But Mr. Mayhew is very emphatic in his statement that there is no intention of being disrespectful to that tyrannical goddess, Discipline, to whose apron strings old fogies are accustomed to cling, and behind whom they invariably take refuge, when some scheme is broached which is not risted with the military mind.

His intention is understood to be merely that gentlemen of position—as most owners of auto cars are—will not be classed as ordinary private soldiers when on manoeuvres, and while not actually ranking as officers, will be treated with every courtesy, as, indeed, they need to be, in order to be in contact with the officers with whom they come into contact. Regarding discipline, the corps will, of course, rank in this respect with the rest of the volunteer corps.

The arming of the automobile corps, Mr. Mayhew considers, need not be very elaborate. His idea had been that the corps would be sufficient, and especially as it is not possible to drive a car and handle a rifle at the same time, though with a revolver that is quite feasible, but the rifle might easily be found a useful addition.

"I shall suggest," he continued, "to the War office, that every member be both with flag and flash light (it would not be difficult to fix a shutter for this purpose to acetylene lamps) and also that members should go through the usual volunteer course of rifle shooting, and it would be very valuable to have as many expert revolver shots as possible."

A very successful test of the automobile corps was conducted at the recent army manoeuvres on Salisbury Plain. They were neither driven by specially trained men nor were they specially selected cars. There were many of the cars, and they would have been rough, but they were likely to be subjected to, but the cars did everything they were called upon to do during the whole of the manoeuvres.

Enrolments are still going on at a rapid rate, and now amount to more than an entire 120; and military and volunteer officers are coming forward well to offer assistance in organization.

A HINT TO FATHERS.

A German resident in Tacoma entered a grocery store the other day, and he bought five pounds of coffee and four qts. of dried beans. As the grocer was about to tie up these two parcels the man said: "You might just mix the two."

"What?" exclaimed the grocer. "Mix them; mix the beans and coffee together," the German explained. The grocer accordingly followed out that order, and handed over to his patron the mixture he could not refrain from asking for the motive.

"I call my dog Tonic," said the loquacious, "because he is mixed with a slight infusion of bark."—Baltimore American.

Did the salt trout dissolve because there was too much water?—Philadelphia Ledger.

RESERVE.

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following area are hereby reserved from pre-emption, sale or other disposition, excepting under the provisions of the mining laws of the Province, for two years from the date hereof, pursuant to the provisions of section 6 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable The Bella Coola Pulp and Paper Company to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement entered into on the 5th day of November, 1902, viz:

1. The entire valley of the Bella Coola and all side valleys, including the Ne-elect-sceney.

2. Lands in the Noos Creek Valley for a distance of eight (8) miles, taking the full width of the valley, estimated at one-half (1/2) a mile.

3. Starting at a post on the easterly side of South Bentinck Arm, one and one-half (1 1/2) miles, more or less, southerly of the point at the easterly side of entrance; thence due east, in a northerly direction, for four (4) miles, more or less, to point of intersection of shore on southerly side of North Bentinck Arm, and bounded on other sides by the shore line of North Bentinck Arm and South Bentinck Arm.

4. Starting at a post on the point on the easterly side of South Bentinck Arm, one (1) mile, more or less, northerly of King Klis Island; thence one and one-half (1 1/2) miles along the shore in a northerly direction, and extending one-quarter (1/4) of a mile wide inland.

5. A parcel of land extending north-westerly along the shore of South Bentinck Arm for one-half (1/2) mile, more or less, in the head of Southman Cove, thence one and one-half (1 1/2) miles, more or less, to a point opposite the northerly end of King Klis Island, and extending one-quarter (1/4) of a mile wide inland.

6. Starting from a post on the northerly side of the Noek River, one half (1/2) mile, more or less, from the mouth, take a strip one and one-half (1 1/2) miles, more or less, to the junction of the Snooteles and the Noek; from that point take the easterly side of the Noek for a distance of ten (10) miles up, estimated at one-half (1/2) mile wide.

7. Starting from a post on the easterly side of the Noek River, one (1) mile, more or less, southerly of the Tillo Indian Reserve, following the timber line along the shore southerly to the valley of the Assa Creek, one and one-half (1 1/2) miles, more or less, taking one-quarter (1/4) mile wide inland; from this point to the westerly side of the valley, three-quarters (3/4) mile wide inland; thence one (1) mile wide (up the valley); thence one and one-half (1 1/2) miles, more or less, northerly along the timber line, and thence one and one-half (1 1/2) miles southerly of Garop Creek, and extending one-quarter (1/4) mile wide inland; thence one and one-half (1 1/2) miles along the timber line, near the shore, and one-half (1/2) mile wide inland.

8. Starting at a point on the westerly shore of the South Bentinck Arm, one (1) mile, more or less, northerly of the village of Tillo, following the low swale behind Tun-quas Point, in a southerly direction, to the point where the swale corners at the Arm, and thence one and one-half (1 1/2) miles, more or less, taking one (1) mile wide.

9. Starting from a post on the westerly side of South Bentinck Arm, four (4) miles, more or less, southerly of the Hot Springs; thence southerly one-quarter (1/4) of a mile along the shore line to the easterly side of the hill, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

10. Starting at a post on the westerly side of South Bentinck Arm, near the Hot Springs; thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

11. Starting at a post on the point on the westerly side of the entrance to South Bentinck Arm, following the shore line for two (2) miles, more or less, to Noos Cla, a point one-quarter (1/4) of a mile more or less, on the southerly side of the hill, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

12. Starting at the mouth of Gtchek Creek, take the full width of the valley, estimated at one-quarter (1/4) mile wide, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

13. Starting at a point at the head of the Na-leek Bay, take one-eighth (1/8) of a mile on each side of post, for a distance of one and one-half (1 1/2) miles, more or less, southerly direction.

14. Starting at a post on the westerly side of How Yet Bay, eight (8) miles, more or less, southerly of the point at the head of the Na-leek Bay, take one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

15. Starting from a post on the northerly shore of Deans Canal one-half (1/2) mile, more or less, westerly of Seiskwa Creek, it takes the entire valley of the Seiskwa, with all the side valleys included.

16. Starting from a point on the northerly side of the Salmon River, immediately below the canyon and one and one-half (1 1/2) miles, more or less, southerly, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

17. Takes the entire valley of the Skoquas, estimated at ten (10) miles long by one-half (1/2) mile wide.

18. Starting from a post near the head of Ketsik Bay, four (4) miles, more or less, northerly of Sit-tum, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line and one-half (1/2) mile wide.

19. Starting at a post at the mouth of Na-kwa-na Creek, one (1) mile, more or less, northerly of Kussot Point, take one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

20. Starting from a point on the Sessop Creek four (4) miles, more or less, westerly of Labouchere Channel, thence one and one-half (1 1/2) miles, more or less, westerly, and one-half (1/2) mile easterly, and one-half (1/2) mile westerly.

21. Starting from a post on the northerly side of the Quanta Creek, one and one-half (1 1/2) miles, more or less, along the shore line in a north-westerly direction to a point one-quarter (1/4) of a mile easterly of the Quanta Creek, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

22. Starting at a post on the southerly side of the point at the mouth of the Quanta Creek, one and one-half (1 1/2) miles, more or less, northerly to a large gulch on northerly side of point. This parcel includes the entire parcel, estimated at one-quarter (1/4) mile wide.

23. Starting at a post near the mouth of North Quanta Creek one (1) mile, more or less, northerly of Quanta Cove, taking one (1) mile up the creek and one-quarter (1/4) mile.

24. Commencing at a post on the southerly shore of the cove just southerly of the second point southerly of Restoration Cove; thence one (1) mile, more or less, in a northerly direction, to a point on the northerly side of a large valley at the head of Kussot Bay; thence due north, along the line of green timber, near the shore line, to a point one-quarter (1/4) of a mile easterly of the Quanta Creek, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

25. A belt of timber half a mile in width surrounding Link (or Link) Lake, at the head of Sisters Inlet, Deans Channel.

FOR SALE.
GRANULAR AND POTATOES

L. S. HONG LEE CO., 150 Government Street.

RESERVE.

Notice is hereby given that all the unappropriated Crown lands situated within the boundaries of the following area are hereby reserved from pre-emption, sale or other disposition, excepting under the provisions of the mining laws of the Province, for two years from the date hereof, pursuant to the provisions of section 6 of the "Land Act," as amended by section 6 of the "Land Act Amendment Act, 1901," to enable The Bella Coola Pulp and Paper Company to select therefrom timber limits for wood pulp and paper manufacturing purposes, as provided by an agreement entered into on the 5th day of November, 1902, viz:

2. Lands in the Noos Creek Valley for a distance of eight (8) miles, taking the full width of the valley, estimated at one-half (1/2) a mile.

3. Starting at a post on the easterly side of South Bentinck Arm, one and one-half (1 1/2) miles, more or less, southerly of the point at the easterly side of entrance; thence due east, in a northerly direction, for four (4) miles, more or less, to point of intersection of shore on southerly side of North Bentinck Arm, and bounded on other sides by the shore line of North Bentinck Arm and South Bentinck Arm.

4. Starting at a post on the point on the easterly side of South Bentinck Arm, one (1) mile, more or less, northerly of King Klis Island; thence one and one-half (1 1/2) miles along the shore in a northerly direction, and extending one-quarter (1/4) of a mile wide inland.

5. A parcel of land extending north-westerly along the shore of South Bentinck Arm for one-half (1/2) mile, more or less, in the head of Southman Cove, thence one and one-half (1 1/2) miles, more or less, to a point opposite the northerly end of King Klis Island, and extending one-quarter (1/4) of a mile wide inland.

6. Starting from a post on the northerly side of the Noek River, one half (1/2) mile, more or less, from the mouth, take a strip one and one-half (1 1/2) miles, more or less, to the junction of the Snooteles and the Noek; from that point take the easterly side of the Noek for a distance of ten (10) miles up, estimated at one-half (1/2) mile wide.

7. Starting from a post on the easterly side of the Noek River, one (1) mile, more or less, southerly of the Tillo Indian Reserve, following the timber line along the shore southerly to the valley of the Assa Creek, one and one-half (1 1/2) miles, more or less, taking one-quarter (1/4) mile wide inland; from this point to the westerly side of the valley, three-quarters (3/4) mile wide inland; thence one (1) mile wide (up the valley); thence one and one-half (1 1/2) miles, more or less, northerly along the timber line, and thence one and one-half (1 1/2) miles southerly of Garop Creek, and extending one-quarter (1/4) mile wide inland; thence one and one-half (1 1/2) miles along the timber line, near the shore, and one-half (1/2) mile wide inland.

8. Starting at a point on the westerly shore of the South Bentinck Arm, one (1) mile, more or less, northerly of the village of Tillo, following the low swale behind Tun-quas Point, in a southerly direction, to the point where the swale corners at the Arm, and thence one and one-half (1 1/2) miles, more or less, taking one (1) mile wide.

9. Starting from a post on the westerly side of South Bentinck Arm, four (4) miles, more or less, southerly of the Hot Springs; thence southerly one-quarter (1/4) of a mile along the shore line to the easterly side of the hill, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

10. Starting at a post on the westerly side of South Bentinck Arm, near the Hot Springs; thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

11. Starting at a post on the point on the westerly side of the entrance to South Bentinck Arm, following the shore line for two (2) miles, more or less, to Noos Cla, a point one-quarter (1/4) of a mile more or less, on the southerly side of the hill, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

12. Starting at the mouth of Gtchek Creek, take the full width of the valley, estimated at one-quarter (1/4) mile wide, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

13. Starting at a point at the head of the Na-leek Bay, take one-eighth (1/8) of a mile on each side of post, for a distance of one and one-half (1 1/2) miles, more or less, southerly direction.

14. Starting at a post on the westerly side of How Yet Bay, eight (8) miles, more or less, southerly of the point at the head of the Na-leek Bay, take one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

15. Starting from a post on the northerly shore of Deans Canal one-half (1/2) mile, more or less, westerly of Seiskwa Creek, it takes the entire valley of the Seiskwa, with all the side valleys included.

16. Starting from a point on the northerly side of the Salmon River, immediately below the canyon and one and one-half (1 1/2) miles, more or less, southerly, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

17. Takes the entire valley of the Skoquas, estimated at ten (10) miles long by one-half (1/2) mile wide.

18. Starting from a post near the head of Ketsik Bay, four (4) miles, more or less, northerly of Sit-tum, thence one and one-half (1 1/2) miles, more or less, southerly along the shore line and one-half (1/2) mile wide.

19. Starting at a post at the mouth of Na-kwa-na Creek, one (1) mile, more or less, northerly of Kussot Point, take one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

20. Starting from a point on the Sessop Creek four (4) miles, more or less, westerly of Labouchere Channel, thence one and one-half (1 1/2) miles, more or less, westerly, and one-half (1/2) mile easterly, and one-half (1/2) mile westerly.

21. Starting from a post on the northerly side of the Quanta Creek, one and one-half (1 1/2) miles, more or less, along the shore line in a north-westerly direction to a point one-quarter (1/4) of a mile easterly of the Quanta Creek, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

22. Starting at a post on the southerly side of the point at the mouth of the Quanta Creek, one and one-half (1 1/2) miles, more or less, northerly to a large gulch on northerly side of point. This parcel includes the entire parcel, estimated at one-quarter (1/4) mile wide.

23. Starting at a post near the mouth of North Quanta Creek one (1) mile, more or less, northerly of Quanta Cove, taking one (1) mile up the creek and one-quarter (1/4) mile.

24. Commencing at a post on the southerly shore of the cove just southerly of the second point southerly of Restoration Cove; thence one (1) mile, more or less, in a northerly direction, to a point on the northerly side of a large valley at the head of Kussot Bay; thence due north, along the line of green timber, near the shore line, to a point one-quarter (1/4) of a mile easterly of the Quanta Creek, and thence one and one-half (1 1/2) miles, more or less, southerly along the line of green timber, near the shore line, to a point on the southerly side of the creek, and taking one-half (1/2) mile wide inland.

25. A belt of timber half a mile in width surrounding Link (or Link) Lake, at the head of Sisters Inlet, Deans Channel.

FOR SALE.
GRANULAR AND POTATOES

L. S. HONG LEE CO., 150 Government Street.

NOTICE.

Take notice that the next sitting of the Board of License Commissioners for the City of Victoria, I intend to apply for a transfer of the retail liquor license to sell spirituous and fermented liquors at the corner of Fort and Broad streets, known as the Bee Hive Saloon, now held by me, to L. G. Burns, of the City of Victoria, on the 5th day of November, A. D. 1902.

All mineral rights are reserved by the Esquimalt and Nanaimo Railway Company within the tract of land bounded on the south by the southern boundary of Comox District, on the east by the Straits of Georgia, on the north by the 50th parallel, and on the west by the boundary of the E. & N. Railway land Commission.

Notice is hereby given that 30 days after date I intend applying to the Chief Commissioner of Lands and Works for a license to cut and carry away timber from the following described lands, situated on Okishollow Channel, commencing at a stake about 100 chains southeast of the Hole in the Wall, on the north side of the Strait of Georgia, and about 10 chains from the shore line, thence running east 80 chains, thence north 80 chains, thence west 80 chains, thence south 80 chains to the point of commencement.

Tenders, sealed and endorsed, "Tender for Debentures," will be received at the City Clerk's Office, on the 1st day of December next, at 4 p. m., for Debentures, to the amount of \$9,000.83 of the Corporation of the City of Victoria, to be issued under authority of the "Municipal Street Paying Local Improvement By-Law."

The said Debentures will bear date the 15th day of November, 1902, and become due, same date, 1912. They will bear interest at the rate of 4 per cent per annum, payable half-yearly, at the office of the City Treasurer, Victoria, B. C., on the 15th day of May, and the 15th day of November, respectively.

Nine Debentures will be for \$1,000 each, and one for \$900.83.

The highest or any tender not necessarily accepted.

WELLINGTON J. DOWLER, C. M. O. City Clerk's Office, Nov. 19th, 1902, Victoria, B. C.

In the Matter of the Winding Up Act and Amending Acts, and in the Matter of the Liquidation of the Esquimalt and Nanaimo Railway Company, Limited, Non-Personal Liability.

Notice is hereby given that a meeting of the creditors and shareholders of the above named company is called for the purpose of the Honorable Mr. Justice Drake, to be held at the Court House, Bastion Square, Victoria, British Columbia, on the 5th day of December, 1902, at the hour of 3 o'clock in the afternoon, for the purpose of nominating an official liquidator of the above named company.

Dated the 27th day of November, 1902. W. J. TAYLOR, Solicitor for the Petitioners.

New Vancouver Coal Co. LIMITED. NANAIMO, B. C.
